A Guide for the Warrior-Seer

Living in Harmony with Natural Law

Ways of Enlightenment

Combat Training System

Start at the bottom of this 'little tree'. The beginning is *Combat Training System*, which expands out into *Ways of Enlightenment*, leading to *A guide for the Warrior-Seer* and *Living in Harmony with Natural Law*. At the top, the *Companion*, which is the daily system that utilises all.

This is the flow of learning and applying the *Way* of Harmonious Flow. These books comprise that system. Together, they are one book, one system, one flow of knowledge, each one opening out into the next.

This was made for all of us, with all good wishes.
